

GP REGISTRAR TERMS IN HNE MENTAL HEALTH

Hunter New England Mental Health has a range of options for local GP trainees to undertake mental health training terms.

- For GP trainees needing to undergo hospital based terms we offer SRMO positions in Acute Psychiatry
- The Newcastle Mental Health GP Registrar Term has been a popular term for many years now and is suitable for GP Trainees seeking an Extended Skills Post or Advanced Skills Post
- Advanced Rural Skills Placements in Mental Health are also available throughout the year at the following sites in our Network: Maitland, Manning, Tamworth, Armidale

HNET is the Psychiatry Training Network for HNEMH and it offers extensive training opportunities for all of its medical staff which are all highly regarded. In addition we are aware that GP trainees need to attend GP Registrar training events and are happy to support your attendance as part of the mental health attachment.
