## Aim

To rehearse the management of anaesthetic crises

## Outline

This inter-professional simulation-based course focuses on the management of anaesthetic emergencies with an emphasis on teamwork and communication.

The timing of the course, between the final written and vivas, is designed to support advanced trainees preparing for their exams.

The course is suitable for basic trainees who work with limited supervision, e.g. after hours, as well as senior anaesthetists wanting to refresh their skills.

This course promotes a team-based approach and anaesthesia assistants are encouraged to attend with their medical colleagues.
