Secondary Retrieval

Dates 0830-1630
Tuesday, 6 February 2024
Thursday, 22 August 2024

7
CPD HOURS

- Suitable for** All Medical and Nursing Staff working as part of the secondary retrieval service
- Prerequisites** Currently working for the Hunter Retrieval Service or working towards same
- Location** HNE Simulation Centre, John Hunter Hospital Campus

Aim

To rehearse the management of the patient requiring retrieval to another centre

Outline

This course provides scenario-based team training in the management of emergencies that you may encounter during the retrieval of a critically ill patient

Content

This inter-professional team training course:

- Reinforces the use of a systematic approach to the assessment and management of any patient who may be clinically unstable
- Provides an opportunity for you to work as part of a retrieval team in a role that reflects what you do in a real life retrieval, including coordination of resources and communication between teams

Cost

Attendance is sponsored by the Hunter Retrieval Service.

Nursing Staff

- Step 1. Contact your NUM to discuss your roster request (if you are willing to attend the course in your own time, skip to Step 2).
- Step 2. Contact the HNE Simulation Centre (refer to course venue details below) to enrol in the course.
